Tuesday May 23, 2017

10:00am-1:00pm

Cheryl Zauderer, Ph.D., CNM, NPP, IBCLC

This three hour workshop will provide the mental health practitioner with the skills needed to screen, identify, and provide a treatment plan for women experiencing PPMD. The expected outcome is for the practitioner to come away with a better understanding of PPMD, and to know when to refer, collaborate, and identify a psychiatric emergency that needs immediate action.

This Workshop is approved for
3 Continuing Education Hours for
LMSW/LCSW/LMHC/LM&FT/LCAT
