# PSI Annual Conference 2017

Thank you for joining us at the 30th Annual Postpartum Support International Conference in Philadelphia, Pennsylvania on July 14-15, 2017

On July 12-13, we held our **2-day pre-conference Certificate Course, Perinatal Mood and Anxiety Disorders: Components of Care.**

The annual PSI conference provides an opportunity to meet, learn together, and share ideas with others involved in the field of perinatal mood and anxiety disorders (PMADs). This professional event is a unique training and networking opportunity, last year attracting more than 400 participants. The purpose of the conference is to bring together and inform medical and mental health providers, childbirth professionals, support and resource providers, caregivers, policy-makers, researchers, volunteers, families, and educators who want to improve their understanding of PMADs and improve their ability to serve pregnant, postpartum, and post pregnancy-loss families.
